Section 2 Information to Consultants

- 1. Introduction**
- 1.1 The Client named in the Data Sheet will select a firm from those listed in the Letter of Invitation, in accordance with the method of selection specified in the Data Sheet.
 - 1.2 The Consultants are invited to submit a Technical Proposal and a financial proposal, as specified in the Data Sheet for services required for the assignment named in the Data Sheet. The proposal will be the basis for contract negotiations and ultimately for a signed contract with the selected firm.
 - 1.3 The assignment shall be implemented in accordance with any phasing indicated in the Data Sheet. When the assignment includes several phases, the performance of Consultant under each phase must be to the Client's satisfaction before work begins on the next phase.
 - 1.4 The Consultants must familiarise themselves with local (African) conditions and take them into account in preparing their proposals. To obtain first-hand information on the assignment and on the local conditions, Consultants are encouraged to visit the Client before submitting a proposal and to attend a pre-proposal conference if one is specified in the Data Sheet. Attending any specified pre-proposal conference is optional. Consultants representative should contact the officials named in the Data Sheet to arrange for their visit or to obtain additional information on any pre-proposal conference. Consultants should ensure that these officials are advised of the visit in adequate time to allow them to make appropriate arrangements.
 - 1.5 The Client will provide the inputs specified in the Data Sheet, assist the firm in obtaining requirements needed to carry out the services, and make available relevant project data and reports.
 - 1.6 Note that: (i) the costs of preparing the proposal and of negotiating the contract, including a visit to the Client, are not reimbursable as a direct cost of the assignment; and (ii) the Client is not bound to accept any of the proposals submitted.
 - 1.7 African Union policy requires Consultants to provide professional, objective, and impartial advice, and at all times hold the Client's interests paramount, without any consideration for future work, and strictly avoid conflicts with other assignments or their own corporate interests. Consultants shall not be hired for any assignment that would be in conflict with their prior or current obligations to other clients, or that may place them in a position of not being able to carry out the assignment in the best interests of the Client.

Section 2. Information to Consultants

1.7.1 Without limitation on the generality of this rule, Consultants shall not be hired under the circumstances set forth below:

- (a) Conflict between contracting activities and procurement of goods, works or services: A firm that has been engaged to provide goods, works, or services for a project, and each of its affiliates, shall be disqualified from providing consulting services related to those goods, works or services. Conversely, a firm hired to provide consulting services for the preparation or implementation of a project, and each of its affiliates, shall be disqualified from subsequently providing goods, works or services resulting from or directly related to the firm's contracting services for such preparation or implementation (other than a continuation of the firm's earlier consulting services for the same project).
- (b) Conflict among contracting assignments: Neither Consultants (including their personnel and sub-Consultants) nor any of their affiliates shall be hired for any assignment that, by its nature, may be in conflict with another assignment of the Consultants.
- (c) Relationship with AUC staff: Consultants (including their personnel and sub-Consultants) that have a business or family relationship with a member of AUC staff (or of the Client staff, or of a beneficiary of the assignment) who are directly or indirectly involved in any part of: (i) the preparation of the TOR of the contract, (ii) the selection process for such contract, or (iii) supervision of such contract may not be awarded a contract.

1.7.2 As indicated in paragraph 1.7.1 (a) above, Consultants may be hired for downstream work, when continuity is essential, in which case this possibility shall be indicated in the Data Sheet and the factors used for the selection of the consultant should take the likelihood of continuation into account. It will be the exclusive decision of the Client whether or not to have the downstream assignment carried out, and if it is carried out, which consultant will be hired for the purpose.

1.7.3 In the event of 1.7.2. and in order to ensure fairness and transparency in the selection process, it is required that Consultants or their affiliates competing for a specific assignment do not derive a competitive

advantage from having provided consulting services related to the assignment in question. To that end, all information that would in that respect give a consultant a competitive advantage shall be made available to all the short-listed Consultants together with the request for proposals.

1.8 The African Union requires that Officers of the AU, as well as Consultants/ Consultnats/ Contractors/ observe the highest standard of ethics during the procurement and execution of such contracts.¹ In pursuance of this policy the AU:

- (a) defines, for the purposes of this provision, the terms set forth below as follows:
 - (i) “corrupt practice”² is the offering, giving, receiving or soliciting, directly or indirectly, of anything of value to influence improperly the actions of another party;
 - (ii) “fraudulent practice”³ is any act or omission including a misrepresentation that knowingly or recklessly misleads, or attempts to mislead, a party to obtain a financial or other benefit or to avoid an obligation;
 - (iii) “collusive practice”⁴ is an arrangement between two or more parties designed to achieve an improper purpose, including to influence improperly the actions of another party;
 - (iv) “coercive practice”⁵ is impairing or harming or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party;

¹ *In this context, any action taken by a Consultant, Consultnat, contractor, sub-contractor or consultant to influence the procurement process or contract execution for undue advantage is improper.*

² *“another party” refers to an officer of the AU acting in relation to the procurement process or contract execution. In this context, “officer of the AU” includes staff and employees of other organisations taking or reviewing procurement decisions.*

³ *a “party” refers to any officer of the AU; the terms “benefit” and “obligation” relate to the procurement process or contract execution; and the “act or omission” is intended to influence the procurement process or contract execution.*

⁴ *“parties” refers to any participants in the procurement process (including officers of the AU) attempting to establish Proposal prices at artificial, non competitive levels.*

⁵ *a “party” refers to any participant in the procurement process or contract execution.*

(v) "obstructive practice" is deliberately destroying, falsifying, altering or concealing of evidence material to any investigation or making false statements to investigators in order to materially impede any investigation into allegations of a corrupt, fraudulent, coercive or collusive practice; and/or threatening, harassing or intimidating any party to prevent it from disclosing its knowledge of matters relevant to the investigation or from pursuing the investigation;

(b) will reject a recommendation for award of contract if it determines that the Consultant recommended for award has, directly or through an agent, engaged in corrupt, fraudulent, collusive, coercive or obstructive practices in competing for the contract in question;

(c) will declare a firm ineligible, either indefinitely or for a stated period of time, to be awarded an African Union financed contract if it at any time determines that the firm has, directly or through an agent, engaged in corrupt, fraudulent, collusive, coercive or obstructive practices in competing for, or in executing, an African Union financed contract.

1.9 Consultants shall not be under a declaration of ineligibility for corrupt, fraudulent, collusive, coercive or obstructive practices issued by the AUC in accordance with the above sub-paragraph 1.8.

1.10

1.11 Consultants shall be aware of the provisions on fraud and corruption stated in the Standard Contract under the clauses indicated in the Data Sheet.

2. Clarification and Amendment of RFP Documents

2.1 Consultants may request a clarification of any of the RFP documents up to the number of days indicated in the Data Sheet before the proposal submission date. Any request for clarification must be sent in writing by mail, facsimile, or electronic mail to the Client's address indicated in the Data Sheet. The Client will respond by facsimile, courier or electronic mail to such requests and will send written copies of the response (including an explanation of the query but without identifying the source of inquiry) to all invited Consultants who intend to submit proposals.

2.2 At any time before the submission of proposals, the Client may, for any reason, whether at its own initiative or in response to a clarification requested by an invited firm, amend the RFP. Any amendment shall be issued in writing through addenda. Addenda shall be sent by mail, facsimile,

or electronic mail to all invited Consultants and will be binding on them. The Client may at its discretion extend the deadline for the submission of proposals.

3. Preparation of Proposal

3.1 Consultants are requested to submit a proposal (paragraph 1.2) written in the language(s) specified in the Data Sheet.

Technical Proposal

3.2 In preparing the Technical Proposal, Consultants are expected to examine the documents constituting this RFP in detail. Material deficiencies in providing the information requested may result in rejection of a proposal.

3.3 While preparing the Technical Proposal, Consultants must give particular attention to the following:

(i) If a Consultant considers that it does not have all the expertise for the assignment, it may obtain a full range of expertise by associating with individual consultant(s) and/or other Consultants or entities in a joint venture or sub-consultancy, as appropriate. Consultants may associate with the other Consultants invited for this assignment only with approval of the Client as indicated in the Data Sheet.

(ii) For assignments on a staff-time basis, the estimated number of professional staff-months is given in the Data Sheet. The proposal shall, however, be based on the number of professional staff-months estimated by the firm. For fixed-budget-based assignments, the available budget is given in the Data Sheet, and the Financial Proposal shall not exceed this budget.

(iii) It is desirable that the majority of the key professional staff proposed be permanent employees of the firm or have an extended and stable working relationship with it.

(iv) Proposed professional staff must, at a minimum, have the experience indicated in the Data Sheet, preferably working under conditions similar to those prevailing in the Country specified for Performance of the Services.

(v) Alternative professional staff shall not be proposed, and only one Curriculum Vitae (CV) may be submitted for each position.

(vi) Reports to be issued by the Consultants as part of this assignment must be in the language(s) specified in the Data Sheet.

3.4 The Technical Proposal shall provide the following information using the Standard Forms attached in Section 4:

- (i) A brief description of the firm's organisation and an outline of recent experience on assignments (Section 4B) of a similar nature. For each assignment, the outline should indicate, inter-alia, the profiles of the staff proposed, duration of the assignment, contract amount, and the firm's involvement.
- (ii) Any comments or suggestions on the Terms of Reference and on the data, a list of services, and facilities to be provided by the Client (Section 4C).
- (iii) A description of the methodology and work plan for performing the assignment (Section 4D).
- (iv) The list of the proposed staff team by specialty, the tasks that would be assigned to each staff team member, and their timing (Section 4E).
- (v) CVs recently signed by the proposed professional staff and the authorized representative submitting the proposal (Section 4F). Key information should include number of years working for the firm/entity and degree of responsibility held in various assignments during the last ten (10) years.
- (vi) Estimates of the total staff input (professional and support staff; staff time) needed to carry out the assignment, supported by bar-chart diagrams showing the time proposed for each professional staff team member (Sections 4E and 4G).
- (vii) A detailed description of the proposed methodology, staffing, and monitoring of training, if the Data Sheet specifies training as a major component of the assignment.
- (viii) Any additional information requested in the Data Sheet.

3.5 The Technical Proposal shall not include any financial information.

Financial Proposal

3.6 In preparing the Financial Proposal, Consultants are expected to take into account the requirements and conditions outlined in the RFP documents. The Financial Proposal should follow the Standard Forms in Section 5. These list all costs associated with the assignment, including (a) remuneration for staff, (foreign and local, in the field and at headquarters); and (b) reimbursable expenses such as subsistence (per diem, housing), transportation (international

and local, for mobilisation and demobilisation), services and equipment (vehicles, office equipment, furniture, and supplies), office rent, insurance, printing of documents, surveys, and training, if it is a major component of the assignment. Where appropriate, these costs should be broken down by activity, and, if appropriate, into foreign and local expenditures.

- 3.7 The Financial Proposal shall include all the costs the consultant incurs to provide the services (including travel expenses, translation, printing and the taxes the consultant pays for its business requirements by the law of the domicile country of the consultant), but shall exclude all local taxes levied within African Union Member States on the invoice issued by the consultant (such as local sales tax, services tax or withholding tax).
- 3.8 Consultants may express the price of their services in any freely convertible currency. The Consultants may not use more than three foreign currencies. The Client may require Consultants to state the portion of their price representing local costs in the Currency of the Country specified for performance of the Services if so indicated in the Data Sheet.
- 3.9 Commissions and gratuities, if any, paid or to be paid by Consultants and related to the assignment will be listed in the Financial Proposal submission form (Section 5A).
- 3.10 The Data Sheet indicates how long the proposals must remain valid after the submission date. During this period, the consultant is expected to keep available the professional staff proposed for the assignment. The Client will make its best effort to complete negotiations within this period. If the Client wishes to extend the validity period of the proposals, the Consultants who do not agree have the right not to extend the validity of their proposals.

4. Submission, Receipt, and Opening of Proposals

- 4.1 The original proposal (Technical Proposal and, if required, Financial Proposal; see paragraph 1.2) shall be prepared in indelible ink. It shall contain no interlineations or overwriting, except as necessary to correct errors made by the firm itself. Any such corrections must be initialled by the persons or person signing the proposal.
- 4.2 An authorised representative of the firm initials all pages of the proposal. The representative's authorisation is confirmed by a written power of attorney accompanying the proposal.
- 4.3 For each proposal, the Consultants shall prepare the number of copies indicated in the Data Sheet. Each Technical Proposal and Financial Proposal shall be marked "Original"

- or “Copy” as appropriate. If there are any discrepancies between the original and the copies of the proposal, the original will govern.
- 4.4 The original and all copies of the Technical Proposal shall be placed in a sealed envelope clearly marked “Technical Proposal,” and the original and all copies of the Financial Proposal if required (see paragraph 1.2 in a sealed envelope clearly marked “Financial Proposal” and warning: “Do Not Open with the Technical Proposal.” Both envelopes shall be placed into an outer envelope and sealed. This outer envelope shall bear the submission address and other information indicated in the Data Sheet and be clearly marked, “Do Not Open, Except in Presence of the Tender Opening Committee.”
- 4.5 The completed Technical and Financial Proposals if required (see paragraph 1.2) must be delivered at the submission address on or before the time and date stated in the Data Sheet. Any proposal received after the closing time for submission of proposals shall be returned unopened.
- 4.6 After the deadline for submission of proposals, the Technical Proposal shall be opened immediately by the Tender Opening Committee. The Financial Proposal shall remain sealed and retained securely until all submitted proposals are opened publicly.
- 4.7 The Firm may withdraw its Proposal after the Proposal’s submission, provided that the written notice of the withdrawal is received by the Client prior to the deadline prescribed for submission of Proposals. The Firms’ withdrawal notice shall be prepared, sealed, marked, and dispatched in accordance with the provisions of clause Deadline for Submission of Proposals. The withdrawal notice may also be sent by telex or fax but followed by a signed confirmation copy. No Proposal may be modified subsequent to the deadline for submission of proposals. No Proposal may be withdrawn in the Interval between the deadline for submission of proposals and the expiration of the period of proposal validity specified by the firm on the Proposal Submission Form.

5. Proposal Evaluation

General

- 5.1 From the time the Proposals are opened to the time the contract is awarded, if any consultant wishes to contact the Client on any matter related to its proposal, it should do so in writing at the address indicated in the Data Sheet. Any effort by the firm to influence the Client in proposal evaluation, proposal comparison or contract award decisions may result in the rejection of the Consultant’s proposal.

- 5.2 Evaluators of Technical Proposals shall have no access to the Financial Proposals until the technical evaluation is completed.
- Evaluation of Technical Proposals** 5.3 The evaluation committee appointed by the Client, as a whole, and each of its members individually, will evaluate the proposals on the basis of their responsiveness to the Terms of Reference, applying the evaluation criteria, sub-criteria (typically not more than three per criteria), and point system specified in the Data Sheet. Each responsive proposal will be given a technical score (St). A proposal shall be rejected if it does not respond to important aspects of the Terms of Reference or if it fails to achieve the minimum technical score indicated in the Data Sheet.
- 5.4 In the case of Quality-Based Selection, Selection Based on Consultant's Qualifications, and Single-Source Selection, the highest ranked firm, or the firm selected on a single-source basis, is invited to negotiate a contract on the basis of the Technical Proposal and the Financial Proposal submitted in accordance with the instructions given in paragraph 1.2 and the Data Sheet.
- Public Opening and Evaluation of Financial Proposals: Ranking (QCBS, Fixed-Budget, and Least-Cost Selection Methods Only)** 5.5 After the evaluation of technical quality is completed, the Client shall notify those Consultants whose proposals did not meet the minimum qualifying score or were considered non-responsive to the RFP and Terms of Reference,. The notification may be sent by registered letter, facsimile, or electronic mail.
- 5.6 The Financial Proposals shall be opened publicly in the presence of the Consultants' representatives who choose to attend. The name of the consultant, the technical scores, and the proposed prices shall be read aloud and recorded as the Financial Proposals are opened. The Client shall prepare minutes of the public opening.
- 5.7 The evaluation committee will determine whether the Financial Proposals are complete (i.e., whether they have cost all items of the corresponding Technical Proposals; if not, the Client will cost them and add their cost to the initial price), correct any computational errors, and convert prices in various currencies to the single currency specified in the Data Sheet. The official selling rates used, provided by the source indicated in the Data Sheet, will be those in effect on the date indicated in the Data Sheet. The evaluation shall exclude those taxes, duties, fees, levies, and other charges imposed that are subject to the African Union exemption on the payment of taxes and duties, and estimated as per paragraph 3.7.

- 5.8 In case of QCBS, the lowest priced Financial Proposal (Fm) will be given a financial score (Sf) of 100 points. The financial scores (Sf) of the other Financial Proposals will be computed as indicated in the Data Sheet. Proposals will be ranked according to their combined technical (St) and financial (Sf) scores using the weights (T = the weighting for the Technical Proposal; P = the weighting for the Financial Proposal as indicated in the Data Sheet. T + P = 1); The firm achieving the highest combined technical and financial score using the formula below would be invited for negotiations

$$S = St \times T\% + Sf \times P\%$$

- 5.9. In the case of Fixed-Budget Selection, the Client will select the firm that submitted the highest ranked Technical Proposal within the indicated budget price. Proposals that exceed the indicated budget will be rejected. In the case of the Least-Cost Selection, the Client will select the lowest evaluated cost proposal among those that passed the minimum technical score. The selected firm will be invited for negotiations.

6. Negotiations

- 6.1 Negotiations will be held at the address indicated in the Data Sheet. The aim is to reach agreement on all points and sign a contract.
- 6.2 Negotiations will include a discussion of the Technical Proposal, the proposed methodology (work-plan), staffing, and any suggestions made by the firm to improve the Terms of Reference. The Client and firm will then agree final Terms of Reference, staffing, and bar charts indicating activities, staff, periods in the field and in the home office, staff-months, logistics, and reporting. The agreed work plan and final Terms of Reference will then be incorporated in the "Description of Services" and form part of the contract. Special attention will be paid to getting the most the firm can offer within the available budget and to clearly defining the inputs required from the Client to ensure satisfactory implementation of the assignment.
- 6.3 6.4 Having selected the firm on the basis including an evaluation of proposed key professional staff, the Client expects to negotiate a contract on the basis of the experts named in the proposal. Before contract negotiations, the Client will require assurances that the proposed experts will be actually available. The Client will not consider substitutions during contract negotiations unless both parties agree that undue delay in the selection process makes such substitution unavoidable or that such changes are critical to meet the objectives of the assignment. If this is not the case and if it is established that key staff were offered in the

Section 2. Information to Consultants

- proposal without confirming their availability, the firm may be disqualified.
- 6.5 The negotiations will conclude with a review of the draft form of the contract. On completion of negotiations, the Client and the firm will initial the agreed contract. If negotiations fail, the Client will invite the firm whose proposal received the second highest score to negotiate a Contract.
- 7. Award of Contract**
- 7.1 The contract will be awarded following negotiations. After negotiations are completed, the Client will promptly notify other Consultants on the shortlist that they were unsuccessful and return the unopened Financial Proposals of those Consultants who did not pass the technical evaluation (paragraph 5.3).
- 7.2 The firm is expected to commence the assignment on the date and at the location specified in the Data Sheet.
- 8. Confidentiality**
- 8.1 Information relating to the evaluation of proposals and recommendations concerning awards shall not be disclosed to the Consultants who submitted the proposals or to other persons not officially concerned with the process, until the winning firm has been notified that it has been awarded the contract.

CONSULTANCY SERVICES TO CONDUCT MID-TERM REVIEW OF THE AGENDA 2063 FIRST TEN-YEAR IMPLEMENTATION PLAN (FTYIP) AND AGENDA 2063 FLAGSHIP PROJECTS

1. BACKGROUND

a) The Context

The African Union Agenda 2063 (the Continent's Framework for socio-economic development and transformation within a fifty-year period) and its First Ten-Year Implementation Plan (FTYIP), the focus of this Mid-Term Review, were adopted by the African Union (AU) Summits of January and July 2015 respectively. In addition to the adoption of the FTYIP, the AU Summit directed all Member States and the Regional Economic Communities (RECs) to domesticate and implement it; and by inference all AU Organs - the African Union Commission (AUC), Pan African Parliament, African Union Development Agency (AUDA) etc to develop strategic plans to address implications stemming from the implementation of the FTYIP.

The two documents were prepared under the direction of an AU Ministerial Committee on Agenda 2063 that also guided the selection of initially 12 (but now 15) flagship projects. The projects are to be evaluated in addition to the review of progress that has been made on the implementation of the FTYIP results framework by member states, RECs and the AU Organs. The Agenda 2063 Ministerial Committee will be the political deliberative body in the conduct of the Mid-Term Review.

b) Concurrent Initiatives

Concurrent with the implementation of the FTYIP by stakeholders, the following initiatives have been taking place:

- i. **Domestication Missions to Member States and RECs:** The domestication exercise has been ongoing in 41 Member States and all RECs in which the AUC, except in few Member States, has taken part. The Exercise has been aimed at assessing; (i) existence of a national structures for anchoring Agenda 2063 implementation (ii) extent to which the FTYIP Results Framework has been integrated into national plans in terms of goals; priority areas and targets and (iii) the level of awareness created at various levels of Civil Society Organizations (CSOs)/media and grassroots. Mission reports to these Member States and RECs indicated varying levels of success of domestication by the time of the visits.
- ii. **Consolidation Workshops:** Two consolidation workshops for Member State and RECs have been conducted since 2016. The workshops provided the forum for Member States and RECs to report on the progress of their domestication; challenges faced and action plans proposed to address these challenges. The workshops also provided the opportunity for sharing implementation experiences between Member States/RECs; presenting and discussing initiatives on Resource Mobilization and Partnership Strategy as well as Monitoring and Evaluation Framework (including Core Indicators Handbook) amongst others.
- iii. **Resource Mobilization and Partnership Strategy:** The document was prepared and adopted by the AU Summit in January 2018. Since its adoption, African Financial Experts have met to develop a road map for its implementation by

Member States. The extent to which Member States are using the document in conjunction with the execution of the FTYIP is not known to date.

- iv. FTYIP Monitoring and Evaluation (M&E) Framework + Core Indicators Handbook: Through a consultative process led by the AUC with AUDA, the United Nations Economic Commission for Africa (UNECA), the African Development Bank (AfDB) and RECs, an M&E Framework and Core Indicators handbook have been developed. The handbook was validated by experts from Member States and is yet to be rolled out. A useful part of the Core Indicators Handbook is that there is almost 80% convergence between indicators outlined and the SDG Indicators – thus making reporting of Agenda 2063 and SDGs at the Member State level less burdensome. Indicators to be tracked at the Member State level by the review will be selected from the Core Indicators Handbook.
- v. Progress Reports on the Implementation of the FTYIP: The AUC on periodic basis prepares progress reports on the extent of domestication especially by Member States – through information collected at the Consolidation Workshops; departments and directorates implementing the flagship projects showing level of attainment of targets; the challenges and the strategies to overcome them. These reports are submitted to the Ministerial Committee on Agenda 2063.
- vi. Categorization and Prioritization of Flagship Projects Study: The Executive Council of the AU, directed the AUC to conduct a review of the flagship projects; and based on funding availability categorize and prioritize them into short, medium and long-term horizons for implementation. The reviews scope should cover what needed to be done in the mid-term evaluation of the flagship projects in the interest of economy and efficiency. The study's scope will entail missions to some RECs, AUDA and meetings with AUC departments to develop a framework for categorization; criteria for prioritization and the specification of the time horizons.
- vii. FTYIP and 2030 Agenda Implementation Partnership Arrangements: The AUC and the UN signed a framework for the implementation of Agenda 2063 and 2030 Agenda for Sustainable Development Goals (SDGs) to enhance collaboration in the execution of the two Agendas. A decision has also been taken by the AU Policy Organs for the AUC to look for the possibility of signing a specific Memorandum of Understanding (MoU) with the UNDP for the AUC to work more closely with UNDP at Member States national level in the implementation and reporting of the FTYIP and the SDGs in an integrated manner. In the process, AUC and UN SDG staff have been discussing the modalities for a common framework for the integration of the two into national visions, development goals and plans at the national level. In addition a common reporting format for the two has been contemplated.

2. OBJECTIVES OF THE REVIEW

The first objective of the review is to assess the level of achievement of implementation of the FTYIP at the Member State, RECs and AU Organs levels and the evaluation of progress towards results with respect to the execution of the 15 flagship projects.

The second objective of the review is to use the information gained to make recommendations to the Ministerial Committee on Agenda 2063 for the remaining period of the FTYIP in the following areas, amongst others:

- (i) Modifications to the results framework for the FTYIP
- (ii) Strategies for strengthening / deepening domestication and awareness at the Member State, RECs and AU Organ levels
