Agenda 2063

Senegal is among 31 African countries to have shared their first national progress report on Agenda 2063's first Ten-Year Implementation Plan. The first-ever continental report assesses progress made at the national, regional and continental levels towards achieving Africa's developmental goals. The report was launched at the 2020 January AU Summit by President of Côte d'Ivoire, Alassane Ouattara.

Five Centres of Excellence approved by Heads of State and Government

A Centre of Excellence on Rural Resources and Food Systems was established in Dakar, Senegal.

Grow Africa

- » Boosting private sector participation in Africa's agricultural transformation.
- » Support was provided towards the establishment of country agribusiness partnership frameworks (CAP-F) in 11 countries, including Senegal.
- » In Senegal, CAP-Fs were operationalised and potential investors for the agricultural sector were identified.

Integrated Vector Management

- » Curbing vector-borne diseases such as malaria and dengue fever.
- » Developed harmonised guidelines and other regulatory tools for regional collaboration among Member States in West Africa to regulate vector control. The efforts resulted in assisted- and joint evaluations of vector control tools.

Corridor investment plans for Programme for Infrastructure Development (PIDA)

A corridor development investment plan (CDIP) and marketing plan were drafted to develop and implement selected PIDA priority projects in Transport, Energy, Transboundary Water, and Telecommunication and IT.

Policy and regulatory frameworks for PIDA projects

- » 21 countries, including Senegal, were trained on water governance and international law with regards to transboundary waters in Africa.
- » The status of cyber security was assessed in 13 countries, including Senegal.

Presidential Infrastructure Champion Initiative (PICl)

To-date, 12 African Heads of State and Government (including the Head of State of Senegal) are championing cross-border infrastructure projects. Membership is increasing over time, reflecting the unequivocal commitment of African leaders to significantly upscale infrastructure across the continent.

Elaborating Scope and Baseline

- » A detailed appraisal of national and regional industrialisation policies and plans.
- » 33 national and four regional industrialisation policies/plans in COMESA, SADC, EAC and ECOWAS (including Senegal) were appraised. The report will be launched in 2020.

Launch of Integrated Irrigation and Agri-Industry Initiative

16 countries, including Senegal, will be supported to operationalise programmes at field level. The initiative aims to foster public-private collaboration along the agriculture and food systems value chain.

Inclusion of indigenous food in Africa's nutritious food basket

A knowledge compendium of integrated best practices and approaches for inclusion of indigenous food in Africa's nutritious food basket was developed from 12 countries, including Senegal.

Initiative for Food and Nutrition Security in Africa (IFNA)

- » Strengthening maternal and child feeding.
- » 12 participating countries, including Senegal, have finalised and validated national nutrition action plans.
- » Senegal has finalised and validated national nutrition action plans.

Strengthening Africa Medical Health Regulation

- » Domestication of AU Model Law on Medical Products to improve access to safe and high quality medicines.
- » 28 countries, including Senegal, are at different stages towards domesticating the AU Model Law on Medical Products. 14 Member States are implementing the Model Law.

Sustainable Land Management

26 Countries, including Senegal, pledged to restore 125 million hectares to reduce land degradation and desertification; create sustainable jobs; and improve food security and resilient communities.

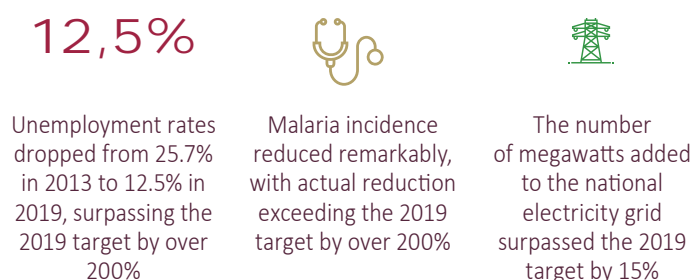

Senegal on Implementation of Agenda 2063

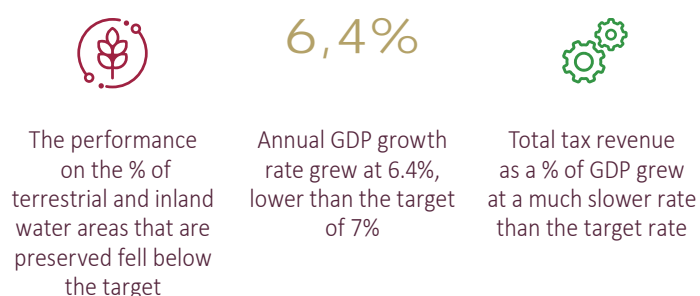

Performance Assessment

Areas where significant progress has been made

Areas where progress has been slow

Areas of Support to Accelerate implementation of Agenda 2063

- Reducing the percentage of children engaged in child labour and in child marriages
- Increasing the percentage contribution of ICT to GDP
- Increasing the volume and value of intra-African trade
- Increasing manufacturing value added as % of GDP
- Increasing pre-primary and secondary school enrolments
- Reducing the prevalence of underweight among children under 5
