■ Technology, Innovation & Digitalisation

■ Economic Integration

Integrated Vector Management

- » Curbing vector-borne diseases such as malaria and dengue fever.
- » Developed harmonised guidelines and other regulatory tools for regional collaboration among Member States in West Africa to regulate vector control. The efforts resulted in assisted- and joint evaluations of vector control tools.

Grow Africa

- » Boosting private sector participation in Africa's agricultural transformation.
- » Support was provided towards the establishment of country agribusiness partnership frameworks (CAP-F) in 11 countries, including Sierra Leone.
- » Rice and fisheries emerged as priority value chains for investment mobilisation under CAP-F.

Elaborating Scope and Baseline

- » A detailed appraisal of national and regional industrialisation policies and plans.
- » 33 national and four regional industrialisation policies/plans in COMESA, SADC, EAC and ECOWAS (including Sierra Leone) were appraised. The report will be launched in 2020.

Gender

- » Empowerment of African women.
- » Modernised business incubators for women in six countries, including Sierra Leone.

Vocational and Entrepreneurship

- » Training for women and youth employment.
- » The ATVET project was launched in Sierra Leone.
- » Supported the integration and alignment of technical and vocational education and training (TVET) into national qualification frameworks in 15 countries, including Sierra Leone.
- » A toolkit on "Private Sector Engagement in ATVET" was developed.

Corridor investment plans for Programme for Infrastructure Development (PIDA)

A corridor development investment plan (CDIP) and marketing plan were drafted to develop and implement selected PIDA priority projects in Transport, Energy, Transboundary Water, and Telecommunication and IT.

Job creation toolkit for infrastructure projects

The PIDA job creation toolkit was launched. The toolkit estimates, amongst others, direct, indirect and induced jobs in job years during the preparation, construction and O&M phase.

Renewable Energy

To increase deployment of renewable energy technologies, especially mini-grid solutions to accelerate universal energy access while increasing productive capacity, resilience building and human wellbeing. High-impact micro-grid projects in 11 countries, including Sierra Leone, were identified where energy accessibility is the lowest.

West Africa Dashboard on Implementation of Agenda 2063

Performance Assessment

Areas where significant progress has been made

180%

24%

Performance on increasing the contribution of tourism to GDP surpassed the 2019 target by 180%

Strong performance on increasing the proportion of households with access to electricity

The value add of the fisheries sector – as a share of GDP surpassed the 2019 target by 24% in the region

Areas where progress has been slow

10%

Pre-school & secondary school enrollment rates met only 10% and 2% respectively of the 2019 targets

7%

Performance on Agriculture Total Factor Productivity realised only 7% of the target in 2019

13%

ICT contribution to GDP achieved only 13% of the 2019 target

Areas of Support to Accelerate Implementation of Agenda 2063

<p>Marine bio-technology for increased contribution to GDP</p>	<p>Increasing the value of manufacturing in GDP</p>
<p>Agriculture production and productivity</p>	<p>Preservation of terrestrial and inland water areas</p>
<p>Improving pre-school and secondary school net enrollment rates</p>	<p>Support to small-scale subsistence farmers graduating into small-scale commercial farming</p>
